

## Panel 52 UGR

The Panel 52 UGR range brings all the benefits of LED lighting to a conventional ceiling panel design, ideal for large open-plan commercial areas such as offices, shops, reception areas, schools and universities.

Using these competitively priced but superior quality LED panels instead of traditional fluorescent light sources can lead to efficiency savings of over 60%. This comes at no compromise to the quality and performance of the light, which is of utmost importance in a workplace environment. The panels are low-glare UGR  $\leq 19$  for ultimate visual comfort.

Available in 600mm x 600mm, 1200mm x 600mm and 1200mm x 300mm panels. Features include IP40 rating, a plug and play connector for easy installation and market leading efficacy of 110lm/W. There are also non-dimmable and DALI dimming options for ultimate versatility.

Part Code	Description / Spec								Power	Lumens	Temp
DLP5230A	DayLux™ Panel 52 UGR16 30W								30W	3450	4000
